

# Victor Escobar from Guatemala City

Victor from Guatemala City graciously accepted the blessing of receiving the PET mobility cart that was donated to him.

Victor was disabled over 5 years ago when he was riding in a city bus in Guatemala City. The bus had an accident in which his right leg was unable to be saved and had to be amputated. His activity has been limited ever since, as he has been using crutches to get around. He has a family and plans to go to the market now to get the groceries they need, now that he has better mobility. He will still need to take someone with him, as he doesn't know how to read or write.

He commented that the cart is a blessing and is greatly appreciated. Victor was anxious to start getting to know how to operate the cart. He was given a quick overview and the tools needed to keep his cart in good working order. This gift of mobility will change his life and he couldn't wait to show his family.

The Guatemala City Ministry Team from Wooddale Church in Eden Prairie, MN invited Victor to eat dinner with them before they took him home at where they were staying. When we arrived to Victor's home, his entire family came out to greet us. They were happy to see that Victor was getting around so well and we asked to get a picture with the team and his family. We thank God that we were able to provide Victor with this gift and know he will get many good years of service with it.

Thanks PET mobility for this generous donation!
