This beautiful young woman is typical of those PETs we have designed, built and donated. I send to you all PET volunteers, promoters and donors to our PET project, a heartfelt thank you for your support, on the church bulletin board, or other such place where you will see it daily.

Her ruined limbs are the result of that dread disease, polio. The polio vaccine is one of the greatest gifts the world has ever known. But for her, it was too late. She was born before this great gift. The same is true of some of our other recipients, like Robert Parks, who is 43 years old, who used to be a Truck driver. 17 years ago he was diagnosed with Diabetes. Finally on March 7th 2013 he was admitted at a Hospital to have his left foot amputated. He is extremely grateful and wishes all the best to the people that make this happen for him.

Not very long ago he attended a course on Cycling with recycled items, where he learned how to make plastic bottles and soda cans into waste baskets and piggy banks. He is now very independent. Robert Parks is one of those people that has been benefited and blessed by a PET. Being able to move around firmly is certainly something that most of us take for granted, for these people and their families is a very special and amazing gift. A gift of love that makes their future look better and brighter. All three of these PETs were made at PET MO-Columbia through your support.

Robert Parks, who is 43 years old, who used to be a Truck driver, is extremely grateful and wishes all the best to the people that make this happen for him.

I ask the reader of this, “If she were your sister, could you afford to send her a PET?” Your answer, of course, is “yes!” Our Christian scriptures remind us that she is, indeed, our sister. “If we claim God as our Father, and see a sister in need, and have the resources to help, but do not, our duty! How can we be anything more than children?”

Robert Parks is one of those people that has been benefited and blessed by a PET. Being able to move around firmly is certainly something that most of us take for granted, for these people and their families is a very special and amazing gift. A gift of love that makes their future look better and brighter. All three of these PETs were made at PET MO-Columbia through your support.

We have been privileged to work with the local Red Cross to be able to assemble and deliver the PETs. The following testimonies are a summary of a few of the stories of people that had been benefited and blessed by a PET. Being able to move around firmly is certainly something that most of us take for granted, for these people and their families is a very special and amazing gift. A gift of love that makes their future look better and brighter. All three of these PETs were made at PET MO-Columbia through your support.
