Together we make a difference

TO GOD BE THE GLORY!

Volunteers who have "been there and seen the need" are passionate about building mobility carts. What the eyes have seen the heart can embrace. That is why there are work trips to the distribution areas.

Fourteen year old Felix was born with no feet. He can now go to school, church and be with friends.

Recipients waiting for carts in Haiti February 2017.

After 15 years of depending on others or dragging herself through the dirt, 22 year old Florvilus now can get around independently.

Josenie was carried to the distribution site by her parents. She now hopes for a new life of independence.
