MOBILITY WORLDWIDE ESTABLISHES ATLANTA AFFILIATE

Mobility Worldwide, an international humanitarian Christian charity that builds specialized wheelchair-carts for those living in the developing world, has officially established an affiliate operation in Atlanta, GA. The manufacturing operations were formally approved after local volunteers underwent the required manufacturing training and then had their first Mobility Carts inspected according to quality standards and exact specifications.

The Atlanta area team, led by Cary Loesing, has begun building and shipping carts to various locations throughout the developing world where they will be distributed free of charge to those who are unable to walk due to injuries from land mines, disease or birth defects. Mr. Loesing serves as the chair of the Atlanta Affiliate's board of trustees. He and his wife, Kim, are members of Grayson United Methodist Church. Mr. Loesing serves as vice president of United Methodist Men in the southeastern jurisdiction and is the immediate past conference president of the United Methodist Men of North Georgia.

Cary Loesing

"It's an honor to lead this effort with an outstanding board and support of the United Methodist Men, to help those who are unable to walk and live in remote communities throughout the development world. The carts not only offer mobility in areas where it's tough to get around but they also provide dignity and allow a person to become a part of their community," Loesing stated. "We are growing our base of volunteers, looking for people who are interested in working with wood and metal to manufacture more mobility carts."

"We continue on our aggressive path to ramp-up more manufacturing operations throughout the US and we're thankful that Cary Loesing and his team took the lead in the establishment of Mobility Worldwide's 26th affiliate which is located in North Georgia," stated Scott Walters, Mobility Worldwide Executive Director. "We look forward to the production of more carts to help those in need throughout Africa, South America, Asia, the Caribbean and elsewhere," he said.

ABOUT MOBILITY WORLDWIDE:

Mobility Worldwide first began as the P.E.T. Mobility Project in 1994. Nearly 70,000 Mobility Carts have been distributed in 103 countries since its founding. Carts are built at one of 26 production facilities located throughout the US and Zambia, Africa. Carts are donated to distribution partners who handle the shipping, importation and assessment of beneficiaries and then given free of charge to those in need. Mobility Worldwide (an initiative of PET International, Inc.) is a tax-exempt 501 (C) (3) NGO/charity with a mission to ***reflect the love of God by bringing mobility and dignity to those in developing countries who are unable to walk.***
