**Volunteer Spotlight:**

**Walt Hays gathers friends across Alaska**

Walt Hays has been a volunteer promoter of our shop for 15 years. He is a United Methodist pastor and Lions member. He has raised over $20,000 for the Mobility cart program and has volunteered at 30 other events.

Walt describes the experience of building Mobility Carts in Alaska:

"Being a part of building the Mobility Carts across Alaska has been a great experience for me. It's been rewarding to see the joy and excitement on the faces of the recipients as they receive their new carts. The challenge of building carts in a remote location offers unique opportunities to connect with the local community and spread the word about Mobility Worldwide. These efforts not only provide mobility for those in need but also contribute to the overall well-being of the communities involved.

I always connect with the local Lions Club and volunteer to help with the cart building activities. It's heartwarming to see the strong sense of community and support in these remote areas. The enthusiasm and determination of the volunteers are always inspiring. These experiences have strengthened my faith and commitment to serve others.

I am grateful for the chance to travel and share God’s love with people in Alaska. The joy of seeing the impact of a Mobility Cart on someone’s life is truly rewarding. It’s a reminder of the power of simple acts of kindness and the importance of giving back to others."
We are an organization called El Bunker, specifically focused on helping people with limited mobility. We make deliveries to people who need it to be able to mobile. That means to the lack of, they could not. Sometimes these people are in remote areas and they make deliveries to them. That means to the lack of, they could not. Sometimes these people are in remote areas and access to those places is made through our organization. The reason for this is to find out how we can get Mobility Carts. Because our organization through a friend, we have obtained several of those carts, which we have given to people who need it to be able to mobile. That means to the lack of, they could not. Sometimes these people are in remote areas and access to those places is made through our organization.

The reason for this note is to let you know, how you can get the Mobility Carts. Because our organization through a friend, we have obtained several of these carts, which we have given to people who need it to be able to be mobile. That due to its lack of mobility, they could not do. Sometimes these people are in remote areas and even those places, we make deliveries to them. Sometimes these people are in the villages, and they cannot get to them. So, if you want to help them, you can participate in this event.

We appreciate all the donors and families who have chosen Mobility Carts. They had the vision to participate in the special event. Night to Shine is held to encourage and celebrate those with special needs age 14 and older. One of your carts helped a recipient participate in the special event.

We are a nonprofit organization based in Guanacaste, Costa Rica, and we are dedicated to helping people with disabilities and those who need mobility. Our main goal is to provide mobility solutions to people who cannot afford them.

Walt Hays gathering friends across Alaska

Walt Hays has been a volunteer promoter of our shop for 15 years. He is a United Methodist pastor and Lions member. He has raised thousands of dollars and has formed mobility cart circles in churches, families, and Lions Clubs around the state of Alaska. He has traveled to three countries for the past 15 years. Walt was a member of the Lions Club in Anchorage, Alaska.

“Two memorable presentations”

I recalled a woman who got out of a mangled wheelchair and took to her new cart like a duck to water. The cart had a cooler in the back, which enabled her to support her children by selling tater-tots in the plaza.

I also had the opportunity to present a cart to a beautiful young mother of two children who had been bedridden for the previous 18 months. She was disabled following a robbery where her husband was fatally shot and she was knocked and left for dead.

We helped her on the cart and she grabbed my hand in a vise-like grip, crying “….”

She was crying, I was crying and the college student was crying. We helped her on the cart and she grabbed my hand in a vise-like grip, thanking, and blessed me for this gift. With a language assist from a college student on the team, I explained the gift was not from me; I was just a volunteer.

The cart was from friends in the US who wanted to share God’s love and help people like her in this special way.

I was crying, I was crying and the college student was crying.

We are grateful for Walt’s endless efforts to help those with leg handicaps. THANK YOU, Walt.
