Curriculum Writer Needed

Mobility Worldwide, an international humanitarian Christian charity that builds specialized wheelchair-carts for those living in the developing world, is in need of an experienced curriculum writer. The candidate will write curriculum to be used to produce education materials for the proper fit of an individual to a Mobility Cart and also the proper use of the device by the user.

Ideal candidates will understand the hectic nature inherent in a missionary setting within a low-income country. The candidate will refer to WHO guidelines on *The provision of Manual Wheelchairs* and *The Wheelchair Service Training Package: Reference Manual* along with other materials they are familiar with to tailor curriculum specific to the Mobility Cart. The curriculum will be used to produce training materials that will be tested to ensure understanding among a globally diverse population that often includes those who are illiterate.

This is a short term assignment ideal for a certified OT or PT. A stipend or an hourly rate is negotiable. Please contact Scott Walters, Executive Director, at ScottWalters@MobilityWorldwide.org for additional details.
