**MOUNT KYENYATTA UNIVERSITY STUDIES CARTS**

(continued from page 6)

"... As of September 2019 Partners for Care (constituted in 2012) in conjunction with partners like counties, foundations, corporations, disabilities groups, and individuals have donated 2659 Mobility Carts (wheelchairs) in Kenya to meet the goal. Each Mobility Cart is handcrafted by teams of skilled volunteers working at Mobility Worldwide locations throughout the United States… Out of the 44 respondents, 15 (34.1%) were aged 20 and below, 11 (25%) were between 21-30, 8 (18.2%) were between 31-40, 5 (11.4%) were between 41-50 and 5 (11.4%) were above 51….

Among the respondents, 26 (59.1%) were male, while 18 (40.9%) were female. In the African culture, the male is expected to lead for their female partners ‘Not being able to provide for my family made me feel less of a man,” was the general sentiment by the male respondents… The arrival of Mobility Carts alleviated some of these frustrations (sell sweets and other merchandise, feel more useful, gain some confidence)…. The female respondents… they could respond to their general sentiment by the male respondents…. The arrival of Mobility Carts alleviated this was the godsend.

A study focused on “The psycho-social and economic impact of Mobility Carts”.

**CONCLUSION**

From the above findings, it is apparent that the Mobility Carts have brought a transformation in the lives of many that were initially incapable of not only making an income but most importantly did not have the freedom to move….

- Phutha Wanga Njyes, Head of Dept. of Economics, Peter Galiku Kuria, Dr. MIKU Foundation and Partners for Care Exports of the Study Published by the Impulse Journal of Economics, Commerce and Management in the UK Dec. 2019

- 17 year old Jok has paralysis.

- Our founder's book of stories is still available for $20 with all proceeds going to build & ship more carts. Or order your check for $25 with postage and more. Book’s link in the memo line.

- Mel West’s book, One Damned Good Horse, is still available for $20.

- We promise to never sell or share our donor list. All your information will be strictly confidential.
LIFE AT THE SHOP DURING A PANDEMIC

Guess what? Majority of the MW volunteers are in the high risk group susceptible to the effects of COVID-19. So March 15, we shut down the shop from active assembly work. However we had individual parts makers that wanted to keep making their special parts – and we did limited access to the shop, cleaned tools better, wiped down common used areas and wore masks in close encounter situations.

To keep the parts material flowing, we still expanded funds to buy raw steel and wood. Since some workers already worked from home anyway, they had more time to work. Knowing that we were not assembling means that our patient work is growing which is all for the good.

On May 1, City of Columbia lifted the restrictions. So the shop opened for assembly and we offered the assembly start to come in and build cart IF comfortable. We made 14 large Mobility Carts the first week back. While all of the existing shop is slowly becoming normal, the new shop did not miss a beat. Work progressed well towards a moving in date of mid-June.

All these activities require donations hence the generous offer of matching funds from two donors. As our donor base sat at home during Stay At Home orders, they had more time to write. They contributed well and the Match was achieved.

The building fund is continuing to be replenished so that we will have NOTHING. NADA “0” when the new shop building is opened. By the way watch for a Grand Opening, Celebration, Ribbon Cutting day tentatively set for September 17 (and that is tentative at writing).

Our June fundraiser by the Rotaract Club has been moved to August and will be held as a Drive Through BBQ. If you are able to attend please RSVP to info@giftofmobility.org.

So June fundraiser by the Rotaract Club has been moved to September 17. Adjustable Cart and Carts has set a goal of 50 organizations and groups 50 carts, making for a fascinating contest and finally sending these carts to Kenya for a photo story back showing how mobility changed a life.

$23,000 Spring Match Met
Thank you to the 124 families, 1 business and 3 churches that sent their gifts to more than meet the goal. We are grateful to you and the Match sponsors!

2020 CARES ACT CHANGES CHARITABLE DEDUCTIONS

The federal government has changed its rules for 2020 in how you can take an increase in charitable giving deductions. This special $300 deduction per eligible taxpayer just happens to be the cost to build and ship a Mobility Cart. Check with your accountant to take advantage of this deduction.

SEC. 2904. ALLOCATION OF PARTIAL ABOVE THE LINE DEDUCTION FOR CHARITABLE CONTRIBUTIONS.

"(22) CHARITABLE CONTRIBUTIONS—In the case of taxable years beginning in the year 2020, the amount (not to exceed $300) of qualified charitable contributions made by an eligible taxpayer during the taxable year ." (from Congress.gov)

"THE GIRLS" DID IT AGAIN

Bryan and Susan Cornett raise chickens. “The Girls” lay eggs, and the sale of eggs have augmented to 16 Mobility Carts being built. As raining goes, they have ordered 25 neighboring churches in Centralia and Mexico countywide to raise milk jug and cans. They bring more CLEAN can and jug to the shop through the help of Carl Yager (his Ford Fusion is full) than any other family or group. And they are clean and dry; ready at packing material in the cart shipping box. Currently they travel their circuit sending our story. Today the First Church, Lutheran Christian Church in Thompson, MO has provided 47 carts. All totaling donations $14,100 over the years. THANKS BE TO OUR SPECIAL FRIENDS, BRYAN AND SUSAN CORNETT and "The Girls".
**LIFE AT THE SHOP DURING A PANDEMIC**

Guess what? Majority of the MW volunteers are in the high risk group susceptible to the effects of COVID-19. So March 15, we closed the shop from active assembly work. However we had individual parts workers that wanted to keep making their special parts - and we did limited access to the shop, cleaned tools better, wiped down common used areas and wore masks in close encounter situations. To keep the parts materials flowing, we still expended funds to buy steel and wood. Since some workers already worked from home anyway, they had more time to work. Knowing that we were not assembling meant that our parts inventory is growing which is all for the good.

On May 1, City of Columbia lessened the restrictions. So the shop opened for assembly, and we offered the assembly teams to come in and build carts IF comfortable. LANDSCAPING TO BE DONE THIS SUMMER WITH A FOCUS ON ECO-FRIENDLY TREES AND GRASSES.

The new welding shop is being outfitted thanks to generous donations. The Boone Electric Community Trust graciously funded the fire and security system.

The PET Mobility Project Foundation provided the necessary components to supply much-needed work stations to the new facility.

Multiple donors have agreed to support landscaping costs. More than a team of volunteers have completed plans for landscaping to be done this summer, with a focus on eco-friendly trees and grasses.

A grand opening celebration is slated for a tentative date of September 17.

**MOUNT KENYA UNIVERSITY STUDIES CARTS**
